**HCRS. Inc. Wins National Five-Year Air Force Medical  
Administrative Support Services Contract**

**Laurel, MD, May 14, 2007** – HealthCare Resolution Services, Inc. (HCRS) ([www.hcrs-inc.com](http://www.hcrs-inc.com)) today announced that it has been awarded a five-year contract to provide various medical administrative support services and health professional staff for up to 63 Air Force Military Treatment Facilities (MTFs) across the continental U.S.

HCRS is one of four awardees for the Air Force Medical Administrative Support Services (AFMASS) contract, which will total an estimated \$90 million over a five-year period. Among the types of services HCRS will provide are: medical record coding, auditing, patient appointments, medical record maintenance, transcription, billing and administrative staffing.

"We are honored and thrilled at being named one of the 'chosen few' entrusted with the massive responsibilities within this contract," says HCRS CEO Jarvis Doles. Our selection, I believe, was based on our present and past performance at nearly 40 Air Force MTFs, Navy and Army medical centers across the country."

In April 2002, HCRS landed a breakthrough contract when it began working with the U.S. Air Force, Air Education and Training Command (AETC) on medical coding, auditing and training. The company became the first in history to receive a command-wide contract for providing these services on-site and has improved overall coding accuracy by nearly 50% since contract inception.

**About HealthCare Resolution Services, Inc.**

HealthCare Resolution Services, Inc. (HCRS) provides healthcare staffing, healthcare consulting and acquisition management and support services to public and private clients in the health care industry. The company's track record for responsiveness and world class customer service is proven by the fact that leading government and commercial clients have repeatedly returned to HCRS to perform professional services. Founded in 1995, HCRS currently employs nearly 300 full-time licensed and certified health professionals nationwide.
